Employer-related services will be impacted indirectly by ARRA funds. Any jobs and training programs that receive ARRA support will also benefit our existing employer services.

To learn more about services available, visit the [Alaska Job Center Network](#)

Employers who are using ARRA funds to create jobs are strongly encouraged to advertise those positions as ARRA jobs. To assist with this effort, a reporting tool will be created within ALEXsys, Alaska's online job bank, that allows employers to list job orders under an "ARRA job" category. Employers may visit the [Business/Employer Connection](#) web page to begin creating job orders.
